## Education

**Indiana University School of Informatics and Computing**, Bloomington, IN

May 2017

*Bachelor of Science Degree in Informatics*

Cognate: Business

## Experience

**Sherish**, Indianapolis, IN

November 2017- Present

*UX/UI Testing*

- ◆ Testing user interface in website application and iOS application reporting bugs, visual errors and suggesting user flow corrections.

**Informatics Capstone Project**, Bloomington, IN

August 2016 – May 2017

*PHP, SQL, Swift Developer*

- ◆ Worked on a team of 5 students to design and develop a unique iOS mobile application. Developed a social restaurant review application, allowing users to discover restaurants while visiting a new city based on where friends have been.
- ◆ Connected the mobile application to a MySQL database, writing PHP scripts and SQL statements to merge with Swift code and retrieve user information.
- ◆ Documented and planned the application throughout our first semester and completed development in our second semester, which we then showcased the final product during a capstone fair in May.

**hc1.com (Healthcare CRM Company)**, Zionsville, IN

June 2015 - August 2015, May 2016-August 2016

*Healthcare Insights (BI) Summer Intern*

- ◆ Worked directly and indirectly with clients to create data visuals in Yellowfin based on their custom preferences
- ◆ Created visual BI/BI reports with client health and financial data gaining experience with SQL, report building and mass data management/entry
- ◆ Acted as liaison between the sales team and BI team on the company's major project of moving sales data from Salesforce platform to hc1.com platform

**TFI Publishing**, Indianapolis, IN

December 2014 - January 2016

*Customer Order Entry and Clean Up*

- ◆ Completed customer order entries with data entry into MAS 90 accounting application
- ◆ Database clean up, focused on removing backordered items from the order system

## Technical Skills
